

Action Plan Template School Wellness Policies

Background

The Healthy Hunger Free Kids Act of 2010 requires Local Educational Agencies to update or modify their wellness policy, as appropriate. When your wellness committee meets on a regular basis throughout the school year, consider using an action plan to ensure progress is being made on your wellness policy and procedures.

Developing an action plan will help your school or district prioritize a few action steps each year. You may use the chart on the following page as a template to organize your plans. Add additional rows if necessary. Be sure to consider all areas such as nutrition guidelines for school meals and snacks, physical fitness activities, and related school activities. After writing the action plan, evaluate what additional resources, if any, will be needed for each action step.

Tip: When developing your wellness plan, ensure your activities are well grounded in your goals by developing SMART objectives:

- **Specific:** Identify the exact area to improve.
- **Measurable:** Quantify the progress.
- **Attainable:** Determine what is achievable.
- **Realistic:** Consider your resources and determine what can reasonably be accomplished.
- **Time bound:** Identify deadlines for goals and related tactics.
