

Prairie Elementary - Seesaw Set-Up

At Prairie Elementary, we use the learning journal Seesaw to share things your child is learning and to share important information with parents as well as updates from our classrooms. Before the start of the school year, begin setting up your child's learning journal on your favorite device (smartphone, tablet, or computer). At the back to school conferences, teachers will share how to connect to your child's personalized account.

An email is required before you can create a parent account on Seesaw. Please follow these steps to set up an email account if needed and to download the Seesaw Parent App on your smartphone or tablet. If you would like additional assistance at the back to school conferences, look for the technology table in the cafeteria.

Thank you, we look forward to connecting and sharing your child's Seesaw learning journal with you — Prairie Elementary School Administration and Teachers
