Nobles County Integration Collaborative also has a Joint Powers Board that participated in the planning process. Joint Powers Board member are: Ray Hassing, Chair; Trevor Wintz, Vice-chair, Lindsay Jenniges, Secretary; Leslie Madison, John Volk, Stephen Schnieder, Lakeyta Swinea, Rhonda Groen, Jorge Lopez

The community planning process used to prepare this Achievement and Integration Plan started in September of 2015. Nobles County Integration Collaborative worked with the Minnesota Education Equity Partnership to gather data on integration and student achievement in its member districts. The data was shared with community members at an Education Equity Summit on Saturday, November 7, 2015. Following the summit, several participants volunteered to assist with additional needs assessment projects and action planning steps, which were conducted throughout 2016. Additionally, NCIC staff members attended MDE's AI Plan guidance session in October 2016 and followed-up with the recommended needs assessment, data analysis and plan completion. The result is this 3-year Achievement and Integration Plan for fiscal years 2017-2020.

NCIC continues to use data and strategies that were formulated in the last plan. The planning process used to prepare the fiscal years 2021-2023 Achievement and Integration Plan included NCIC staff meeting with individual member district's administrators and the World's Best Workforce team to review the current Achievement and Integration Plan for the district. The team discussed what changes they would like to see in their plans in order for the work of NCIC to be most effective. The team reviewed current plans and progress reports in order to determine the Achievement & Integration Plans for fiscal years 2021-2023 for each district.

In addition, NCIC staff, administrators, and school board members have met multiple times throughout the year to discuss progress towards Achievement and Integration goals, shared up-dates on programs, and conducted yearly building walkthroughs and review of data.

Community Collaboration Council for Racially Identifiable School(s): N/A

Goal #1: By 2023, the percentage of students in the FRPL subgroup of grade 8 will increase from the current proficiency level of 33% to 40% or greater as measured by the MCA's in Math.

Aligns with WBWF area: All racial and economic achievement gaps between students are closed.

Goal type: Achievement Disparity

Strategies

Strategy Name and # Interventionists 1.1

Type of Strategy: Innovative and integrated pre-K-12 learning environments. * If you choose this, complete the Integrated Learning Environments section below.

Integrated Learning Environments (Minn. Stat. § 124D.861, subd. 1 (c)). If you chose *Innovative and integrated pre-K through grade 12 learning environments* as the strategy type above, your narrative description should describe how the different aspects of integrated learning environments listed below are part of that strategy:

Creating Efficiencies and Eliminating Duplicative Programs

Briefly explain how this plan will create efficiencies and eliminate duplicative programs and services (Minn. Stat. § 124D.861, subd. 2 (c)). By collaborating with adjacent school districts, the members of Nobles County Integration Collaborative make efforts to maximize impact and reduce duplication of effort. Now that the focus is on academics more than on integration, more of the programs will be offered independently in each district, rather than jointly for the region. This will probably increase participation in voluntary activities because the activities will be offered locally rather than at a geographically central location, however, it will reduce the amount of intercultural learning experiences for students in the districts that have fewer racially/ethnically diverse students.
