Due to Covid-19, NCIC's regular grade level character retreats did not happen. Our focus shifted more towards academic support in the schools during the pandemic. The funding shifted toward academic Interventionists.

Due to Covid-19, all of the grade level retreats were cancelled, out of school time programs were limited on student capacity or through zoom, and most every other in person opportunity or program was cancelled. The programs that were held, were attempted to be held outdoors to limit exposure. Book clubs were started to engage students in reading. The NCIC collaborated with school Summer lunch programs to meet where lunch was served to do various activities or kits available for students to take with their lunch. NCIC staff also assisted with language support. The goal is to reactivate in person programs when it is safe to do so to support the districts partnered together.

## Integration

**Narrative is required; 200-word limit.**

Please summarize the impact of the integration strategies you implemented with the A&I districts you partnered with during the 2020-21 school year. Also, consider ways that your A&I plan strategies have increased integration within your district.

We needed to modify and shift to a more academic focus during the pandemic and decrease our in person events due to Covid-19. We were not able to host our grade level retreats working on character aspects that promote welcoming and inclusive environments. Our funding focus shifted to support the work that was allowed as we attempted to change and brainstorm throughout the pandemic.

## Impacts from Distance Learning

**Narrative is required; 200-word limit.**

Briefly explain how you modified your strategies this past school year because of distance learning. List the strategies you weren't able to implement. What A&I-related data were you unable to collect to document progress toward your goals? How did those adjustments or lack of data inform your A&I planning for the 2021-22 school year?

Many opportunities were canceled or were offered through Zoom. The main impact on our data collection continues to be small due to Covid-19 school restrictions. The value of comparison to previous years has reduced, through the data we did collect still provides a valuable insight into the performance of each strategy.
