## WELCOME

As winter quickly approaches, we are thrilled to celebrate another wonderful season with you. Once again, we have partnered with local organizations and community members to bring exciting opportunities for you and your family to stay active, connected, and inspired. There is truly something for everyone, from toddlers to adults.

Inside this catalog, you will find a variety of offerings such as gymnastics, Celebration Chorus, watercolor painting, and much more. Do not forget to check out our after-school youth programs through the Nobles County Integration Collaborative (NCIC), which also provides homework help throughout the school year. The dedicated NCIC staff are pictured above.

At Community Education, we believe in the power of connection between schools, families, and the community. We work hard to include information about upcoming events, contact details, activities, and other school-related announcements to keep you informed and engaged.

# Early Childhood Screening

**Do you have a child that is 2-5 years old?  
Has your child been to early  
childhood screening? If not, read on...**

Minnesota State Law requires that children age 3 1/2 - 4 years participate in a developmental early childhood screening. This screening is free. The purpose of the screening is to identify children who may benefit from district and community resources that are available to help in their development.

The screening will consist of the following components: fine/gross motor skills, language development, concepts, height/weight, vision, hearing, review of child's health history, and immunization record (these are not substitutes for comprehensive exams).

District 518 will be sending out letters of invitation to children who are in the appropriate age range. *If your child is 4 years of age and has not been screened or if you would like to check if your child is listed on our census, contact Melanie Kuhl, Early Childhood Screening Coordinator at (507) 727-1207 for more information. Early Childhood Screening Dates for this school year are:*

To obtain these program scholarships, families should indicate their interest in applying for the reduced fee when enrolling their children in a Community Education class or activity. The Enrichment Programs Coordinator will determine whether any additional information is needed to determine if the child qualifies for this income-based program. There is no behind-the-wheel driving and there are no tests. According to Minnesota state law, people age 55 and older who complete a state-approved defensive driving course are eligible to receive a 10 percent, three-year discount on auto insurance. Contact your insurance agent for details. After you complete the course, you will receive a certificate of completion to give to your insurance company. Over the past several months, I've had the privilege of sitting down with students, staff, families, and community members across Worthington to listen and learn. During this time, nine different listening sessions were conducted as I began learning about District 518. As a new superintendent, I believe the best way to understand a system is through conversation. These discussions allowed for honest feedback about what we value, what we do well, and where we can grow.

Throughout the process of our listening sessions, a picture of District 518 became clear to me. This picture was outlined by care, collaboration, and community pride. Whether I was visiting with the staff of one of our schools, chatting with students, or simply being among a learning community, one truth stood out. People here care about kids.

At the heart of the messages I heard was a shared belief in relationships. Staff and students emphasized that strong relationships built on trust, respect, and communication, are the foundation for success. Teachers and support staff spoke about knowing each student by name and by need. Students shared how much it means when adults take time to check in, listen, and show they care.

Our learning communities also take great pride in their diversity. Worthington Schools are a community where students, staff and families bring a world of perspectives and backgrounds into our classrooms. Our educators recognize this diversity as one of our greatest strengths and are committed to ensuring that every student feels included, supported, and challenged.

Equally important is a focus on opportunity. Staff shared how they strive to make sure that every learner has access to high-quality academics, arts, and athletics. From an array of educational activities and electives to expanding access to career, post-secondary, and technical programs, our schools are providing more pathways than ever for students to find success.

Another theme that became prominent as we spoke from building to building was teamwork. Teachers, paraprofessionals, counselors, and administrators work together daily to meet students where they are. Our staff have embraced collaboration through a co-teaching model, participation in professional learning communities, and through flexible scheduling. This collective effort reflects a commitment to ensuring every student is supported by a caring team.

Of course, our conversations also highlighted areas that need continued attention. Mental health support remains a pressing concern. As needs grow, so must our capacity to provide services for students of all ages and all needs. We also heard a call for continued improvement to facilities. This included a desire to update spaces for music and the arts, enhancing technology access, increasing safety protocols, and ensuring our learning spaces support modern 21st century learning.

As we began each of the individual listening opportunities, I shared with staff and students that these would not be a one-time event. The insights gathered will help guide our needs assessment and, ultimately, a full strategic planning process. Together, we'll define the goals and priorities that will shape how District 518 continues to provide great opportunities for our learners. I look forward to more opportunities with our learning communities in the future.

The good news is I can confidently say that we are starting from a place of strength. This district is grounded in relationships and driven by the value that every student deserves to succeed. Our goal now is to align resources, strengthen communication, and build systems that ensure our successes are sustainable.

As your new superintendent, I am honored to serve this incredible community. I will continue to listen, learn, and lead alongside our staff. I believe in this because our students and families deserve our very best.
